

Program Options

Young Infant
(6 weeks - 9 months)

Our Young Infant program guides a baby's early experiences toward a lifelong love of learning. One day per week, parents share fun, developmentally appropriate activities with their children and other parents. Evening adult sessions once per month cover topics such as life with a new baby, breast/bottle feeding, infant massage, sleep schedules, and more.

Older Infant
(10 months - 18 months)

Our Older Infant program meets once a week. Parents and children share the excitement of growing independence and mobility through exercise fun trails, art projects, interactive music, and playtime. Evening adult sessions once per month cover topics such as feeding, safety, speech development, motor skills, and more.

Toddler
(19 months - Two and a half years)

In either two-day or three-day weekly options, our Toddlers learn about friendships, dive into creativity, and work to master new skills. Parent and child go to class together two days a week, and on the third day the child transitions into the school setting without the parent to interact with teachers in a safe, predictable environment.

**Three-Year-Old
Preschool**

In either three- or five-day options, our Three-Year-Old Preschool program provides play-based classrooms with a blend of children's natural play and teacher-led learning for whole-child education.

**Four-Year-Old
Preschool**

This five-day-a-week program provides an exemplary education for our students through interactive play-based learning and guided education.

**Parent
Connect**

Our Parent Connect classes are a valuable resource that supports our families on their parenting journey. These once-a-month adult sessions are designed to provide a safe forum for discussion of effective tools in child development and are included in the registration of any Launch Learning classes.

Come be a part of launching the current generation of Brevard's children and families into a brighter future.
